

Alan Krajina

Frontend Developer

ABOUT ME

Frontend developer with 2+ years of working experience using React and Svelte. Always thriving to create the cleanest and most efficient code that not only makes the app run great, but gives the client the most user friendly and eye catching UI. Overall experience as a Fullstack creating services and it's relevant architecture in NodeJs and Golang.

TECHNICAL PROJECTS

SOSELL browser & mobile app

Digital Impact Awards 2020 winner

Best development of proprietary social media platform and tools

<https://www.communicatemagazine.com/news/2021/digital-impact-awards-2020-winners-announced/>

Built using ReactJS and React Native expo. Utilizes latest features like React Hooks, TypeScript, Redux for state management, Deep Linking for navigation, Apollo GraphQL for queries and mutation, Material UI etc.

Other projects listed on my LinkedIn page.
